

ESCAPE GAME

A Classy robbery

//// WHAT'S HAPPENING ? ////

The famous thief **Adèle Ludin** has entered the Museum several times. Her back-and-forth trips were spotted by staff who contacted the **M.U.S.É.E** (Best Special Unit: Erudit Investigators) police department to come to his aid. According to one of her indicators, she intends to return tonight. But what is she looking for? The director and the curator are very worried, especially since she is known to be very clever

//// WHAT IS THE GOAL ? ////

It is a question of thwarting Adèle Ludin's plans: identifying objects likely to be stolen and collecting clues left unconsciously by the thief. And, you also have to manage to get out of the museum.
